## SUMMARY

Passionate Backend Developer with 2+ years of experience. My areas of expertise include constructing scalable and secure online applications, working with databases, designing and implementing RESTful APIs, and guaranteeing the performance and dependability of server-side applications.

I am also a web developer who is passionate about creating engaging and user-friendly websites. I am always eager to learn new skills and technologies that can help me improve my web development abilities. I enjoy working in a team and collaborating with other developers to solve problems and deliver high-quality products. I am looking for opportunities to gain more experience and showcase my web development skills.

---

## EXPERIENCE

### Backend Engineer(Team Lead)

#### Mealy App

April 2023 - July 2023

- Worked with a team to contribute to the development of an online platform that allows people to order food online from the comfort of their homes.
- Utilised Node.js and express.js for server-side development.
- Integrated with NoSQL (MongoDB) for server-side development.
- Developed RESTful APIs to allow for easy communication between front-end and back-end.

### Intern

#### Mobil 11Plc

September 2020 - July 2021, Apapa, Lagos, Nigeria.

- I worked hand-in-hand with the product manager to supervise technical staff
- I worked with other interns to set up and maintain plant equipment, preparing reports and presentations on drilling activities.

---

## PROJECTS

### Dad's jokes app <https://dejj1.github.io/dadjokes/>

January 2023 - January 2023

- Developed Dad's Joke app. Implemented features such as an intuitive user interface, a rating system, and a searchable database of jokes for easy navigation and discovery.

---

## EDUCATION

### Diploma in Software Development(Backend)

Stutern • 2023

### Bachelor of Science in Petroleum and Gas Engineering

University of Lagos • Nigeria • 2022

---
