SOFTWARE DEVELOPER

◇———————————————————————————————————◇

• Full Stack Developer

Software Engineer • Backend Developer • Distributed Systems • Object Oriented Design

Increased Productivity • Graphics Designer

PROFESSIONAL SUMMARY

◇———————————————————————————————————◇

I am a passionate Backend Developer. My areas of expertise include constructing scalable and secure online applications,
working with databases, designing and implementing RESTful APIs, and guaranteeing the performance and dependability of server-side applications.
I am also a web developer who is passionate about creating engaging and user-friendly websites. I am always eager to learn new skills and
technologies that can help me improve my web development abilities. I enjoy working in a team and collaborating with other developers to
solve problems and deliver high-quality products. I seek opportunities to gain more experience and showcase my web development
skills.

EXPERIENCE

Tobbylak Engineering Website   **September 2023**

https://flexgig.online

Developed a website for freelancers to connect with prospective clients interested in their services. I also worked on the server side of the app; concerned with the authentication flow of the users.

Stutern Graduate Accelerator Program   **Apr 2023 - Jul 2023**
Backend Developer

- Worked with a team to contribute to developing an online platform that allows people to order food online from the comfort of their homes.
- Utilized Node.js and express.js for server-side development.
- Integrated with NoSQL (MongoDB) for server-side development.
- Developed RESTful APIs to allow for easy communication between front-end and back-end.

Real Estate Website   **April 2023**

https://rd907realty.com

Developed a website for a property realtor to reach out to prospective clients interested in buying lands or houses. I also worked on the server-side of the website dealing with the authentication of users on the website.

Tobbylak Engineering Website   **March 2023**

https://tobbylakengineering.com

Developed a website for a building contractor to showcase his work and reach out to prospective clients interested in building houses or any of his other services.

Mobil 11Plc, Apapa, Lagos, Nigeria.   **Sept 2020 – July 2021**
Software Developer Intern

- Achieved an estimated 12% rise in team productivity through researching, investigating and fixing a wide range of technical issues.
- Exceeded network optimization target of 8% efficiency increase by documenting and testing new software applications.
- Decreased system bugs by 3.5% by generating dev models and modifying software to fix errors, adapting it to new hardware, and upgrading interfaces.
- Generated client profits of $1.8M by introducing beta software in order to garner useful feedback from clientele.
- Optimized software design and development for profit growth of 5.6%

Emmanuel A. Oyelakin

EDUCATION

Stutern Graduate Accelerator Program **2023**
Diploma in Software Development
- Winner of award, distinction or honor

University of Lagos, Nigeria **2022**
BSc in Petroleum and Gas Engineering
